ABOUT ME

I am a final-year CS student at NUML Lahore, with a passion for Full Stack Software Engineering and AI. I have developed a strong foundation in frontend development, backend integration, REST APIs, authentication systems, and database management.

Experience

Dafi Labs – MERN Stack Developer Intern | Jul 2026 – Present | Remote

Developing full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Working with REST APIs, Git/GitHub, authentication, debugging, testing, deployment, and collaborative software development workflows.

Rhombix Technologies – Software Development Intern | Aug-Oct 2025 | Remote

Contributed to full-stack web application development, REST API integration, debugging, testing, and feature implementation while collaborating with the development team using modern development tools and practices.
